Government and other Desirable Securities

No. 5 Nassau St, N. Y. recommend to investors the

FIRST MORTGAGE BONDS OF THE

CENTRAL

Their line with extend from Sucramento, California across the Secra Nevadas to the Colifornia State line traversing the memers AND MOST P. P. 10.005 SECTION OF CALLFORNIA, and thence through the GREAT MINION REGIONAL OF THE TERRITORICA, to the vilotity of Salt Lake City.

It forms the sold Westerns Link of the only route to the Pacille which is adopted by Congress and Almed by The Issue, of Pintes States Bonis.

Their road is already completed, equipped and running for \$1 miles from Sicramento to within 17 miles of the summit of the Sierra, and Alarge mount of the work of Grading, Funnelling, &c., beyond that point has been secuelylished.

The FURST MONTGAUE BONNIS of this Company afford unusual inducements of Safety and Profit to investors, for the following among other reasons; Viz.:

VAZ.:
FIRST, The rate of interest is Six ren CRST, is
GOLD, payable semi-annually in the City of New SECOND. The Phincipal is payable in Gold at

York.

8ECOND. The Principal is payable in Gold at maturity.

THERD. The cost of the Bonds, Night-Pive Pen Cent. and accrued interest, is The Pen Cent. The Bearing Bonds of the Riverment.

FOURTH. The United States Bovernment provides recarly balf the amount increasary to build the entire road, and looks mainly to a small percentage on the future traffle for reparation, accompanied with Extensive Grants of Public Lande, by which the Government fosters this great attioning enterprise, list-access is rendered certain, and its manical stability is altogener incependent of the contingencies which stiend ordinary Rulling enterprises.

SIXTE. The Security of its First Mortgage Bond is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

8EVENTIL. The net carallage of the completed portion are attendy largely in excess of the interest obligations which the Company will learn on twice the distance, and are steadily increasing, rendering the autoterrapted payment of the Interest absolutely certain.

EIGHTIL At the present rate of Gold they pay nearly 8 1-2 Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of \$1,600. With semi annual Gold. Courpass attached, regule.

invested.
The Bonds ore issued in denominations of \$1,060.
The Bonds ore issued in denominations of \$1,060 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at \$5 per cent, and accrued lightest (in currency) from January

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the

constry.

Remittances may be made in drafts on New York, or in Legial Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulate, by mail or otherwise, will receive panetural attention.

A Heroic Act.

We tearn from the Eimi a Gara to that two mall boys, aged respectively sine and closen years, while playing upon a rulely contracted raft of their awn build no, in one of the bayformed by the resent high wider, ventured too angry river which ru h d there on towards the dam, over which the river profess with te-riffe force. Their cries for he'p were beset at the tanucry, and the a arm was spread. A large crowd collected upon the banks, mona having the courage to attempt the resour, but offered such advice as "jump off the rate as I

swim for shuro." Luckily the little fellows had too mach an anon sense to make the artempt, and in troud their hold upon their trail book. As they frew near the door, Solom of P. Surch, a young nan and a cooper, resches the river, and, with quick eye takes in all the chances, and calls in a clear calm voice, " Pail down on the mift and hold it fast as you go over the dam, sol. 194 fellow you. " The tops in this hour or three econice the command as one to the obeyet. and they sirk down, claspley an accommode asch other's bidy, and with the other cling to the boards which are already giving way to the force of the current, and they are distinct over the dam, the rath separates and each grasping a portion, are smoot onward with the current.

leaky bost, scarcely more reliable than the raft, and without ones and true a bit of a board to guide and proper it, purhes out towards the middle of the stream, and turning the stream of the boat down stream follows them safely oven the dam, and speceeds in resening them near the Main street bridge. # ALL SAINTS' CHAPEL,

In the cities of Providence and Boston, the hackmen are restrained by due regulations which policemen are always on hand to enforce, by which these knights of the whip are kept within certain prescribed bounds by ropes or other means of restraint, and beyond those limits they are not allowed to treepass, and thus passengers on landing are secured from the annoyance of being hustled and flustered by being surrounded by a set of monalmost as fercolous for the persons of the strangera as budgey wolves. No one who has visited New York but can relate

a disagreeable experience of the extent of this nuisance in that city, and Newport bids fair to Virginia lately in session at Staunton, stated rival New York in this matter. We call attention to this neglect in consequence of earnest protestations against this annoyance by gentlemen and ladies who have receptly landed in our city from both the steemboats and the care, and we trust that there will be an immediate remedy provided by our authorities, who have a well organized and capable police department with which to remedy this and all other like ovils. Our backmen, it is true, are an industrious and hardworking class and exposed to many hardships, and upper proper regulations, are both a necessity and upper proper regulations, are both a necessity and record at last a novement among our New York a convenience to the public, and as such, are entitled to proper consideration and encouragement, but without due restraiote, they may become and often 'do become, an annoyance instead of a convenience to the public. Unique Recond. - There is in this city a business establishment the history of which runs back to 1745, the year in which it was begun where it is now carried on. There have been during the intervening time five changes of ownership, and in every case the property has passed into the hands of the senior properties. We are reminded of this history by the fact that a change uniform in character with the former has just been made in the business.

MOONLIGHT ON THE WATERS .- Last evering was the most beautiful, thus far, of the sesson. The broad, full meen shed its rays upon an almost unruffled sea, and acores of boats with sails and core. were out with gay and happy parties, while the strains of vocal and instrumental music were waled over the still' moonlight waters. It was a late hour ere all was still.

No. 1. THE CHINGARORA ANTI-NERVOUS Smoking Tobacco!

The CHINGAROHA TOBACCO grows from the rich soil of the "DRIENT," and is possessed of a peculiarly del clous flavor entirely maknown to the tobaccos of all other clime. But its unprocedented popularity has soring from the fact of the entire absence of that deadly polson, Nicolin, which permentes every other tobacco, and which is the one and sole cause of the detreating nervous alliesses, dyspepsia de, which most invariably, sooner or later, toliow the indulgence of the pipe and clear. At the recent analyzation of tobacco from all parts of the world, at the Academy of Sciences, in Paris, the recommed themist. M. LANGERAUX, declared that while European and American tobacco contained fully eight per cent, and the purest Havara tobacco from the dwo dive cert cent, of Nicolin, the CHINGA-RORA did not ominin one disposerable particle of that deadly polson, a drop of which, extracted, will destroy life.

Our agent at BOMBAY has shipped us largo quantities of the Chingaroma during the post two years, and atthough we have been present on the votera association of this delicious luxury to the votera association, yet we are now prepared to offer it in unlimited quantities, at a price much lower than som American and analysis.

get we are now prepared to offer it in unlimited quantities, at a price much lower than som American obacch of a far inferior quality.

A comoisen han but to a toke the American to-beco and regars, which are invalidity chemically flavored, to be disgusted with the medicinal tasts which leaves a massecule, unhealthy coating in the mouth and in these seldom fails to shatter the nervolate form.

moint find it the service and to another more recovered to the "Olitent" smoke "e Chinoanona from norm ill night, from you", egg, and one trappelly unconscious of the whid, o.a. receiping fire which courset through the wina of the inhaler of the fining of tobacro containing Nicolia.

We invite every lover of the weed to try the Chinoanona, and gaarante unprecedented pleasure in its delution flavor. Solid everywhere at \$1, a pound.

THE UNION PACIFIC

RAIL ROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA. westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT.

The Company now offers a limited amount of their

FIRST MORGTAGE BONDS

This road was completed from Omaha 505 miles west on the lat of January, 1867, and is fully onlined, and irrina are regularly running over it. The Co pramy has now on hand sufficient from, fits, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 212 miles, which is much contract to be done Reptember 1st of this year, and it is expected that the smile road will be in running order from Omaha to its western connection with the Control Nation of the western connection with the Central Pacific, now being rapidly built castward from Sacramento, Cal., during 1870.

MEANS OF THE COMPANY.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government leaves its 8ix per cont. Thirty-year Bonds to the Company as the road is finished at the average rate of about \$28,250 per mile, amounting to \$44.

the Company as the road le finished at the average rate of about \$28,239 per mile, amounting to \$44. No. \$600.

The Company is also permitted to issue its own first Nortgage flouds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage to the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 series of land to the mile, amounting to 20,032,000 acres, cattenated to be worth, \$30,000,000, making the total resources, exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized. The authorized Capital State of the Company is one hundred million dollars, of which five millions have alteady been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The coact of the road is estimated by competent exclusive of equipment.

#### Prospects for Business.

The railroad connection between Omaha and the Bast is now complete, and the carnings of the Oolou Pacific on the sections already finished for the first two weeks in May were \$118,600. These sectional carnings as the road progresses will much more than pay the interest on the Company's bond, and the through business over the only time of railroad between the Atlantic and Pacific must be immune.

Value and Security of the Bonds

The Company respectfully submit, that the stave statement of facts fully domonarates the accurity of their Boods, and as additional proof they would ruggest that the bonds now offered are less than ten milition dollars og 517 miles of road, on which over twenty million dollars have already been expended; —on 380 miles of this road the case are now running, and the remaining 187 miles are nearly completed. At the present rate of premium on gold these bonds pay an annual interest on the present cost of

and it is believed that on the completion of the road, like the Government Bonds, they will up above has like the Government Bonds they will go above par. The Company Intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.
